Arjun Nair

Kochi, Kerala, India | arjun.nair.ml@gmail.com | +91 98765 12345 | linkedin.com/in/arjunnair-ai | github.com/arjunnair-ai

SUMMARY

Motivated AI/ML Engineer with a strong foundation in machine learning, deep learning, and Python programming. Hands-on experience building predictive models, image classification systems, and NLP applications through academic and personal projects. Familiar with TensorFlow, PyTorch, Scikit-learn, and data preprocessing techniques. Passionate about solving real-world problems using AI while continuously learning emerging technologies.

EDUCATION

Government Engineering College, Thrissur
Bachelor of Technology (B.Tech.), Computer Science and Engineering, CGPA: 8.86 / 10 *2025*

EXPERIENCE

Machine Learning Intern January 2025 – April 2025
TechNova Solutions Pvt. Ltd.

Responsibilities

- Assisted in preparing datasets for machine learning experiments.
- Performed exploratory data analysis using Pandas and Matplotlib.
- Built and evaluated classification models using Scikit-learn.
- Implemented feature scaling and feature selection techniques.
- Documented model performance using precision, recall, F1-score, and confusion matrices.

PROJECTS

Customer Churn Prediction | Technologies: Python, Scikit-learn, Pandas

- Built machine learning models to predict customer churn.
- Performed data cleaning, feature engineering, and preprocessing.
- Compared Logistic Regression, Random Forest, and XGBoost models.
- Achieved 91% classification accuracy using Random Forest.

Plant Disease Detection Using Deep Learning | Technologies: Python, TensorFlow, Keras

- Developed a CNN model to identify plant diseases from leaf images.
- Applied image augmentation and transfer learning.
- Achieved 94% validation accuracy.

Movie Recommendation System | Technologies: Python, Pandas, Scikit-learn

- Developed a content-based recommendation engine.
- Used TF-IDF vectorization and cosine similarity.
- Improved recommendation relevance through feature engineering.

TECHNICAL SKILLS

Python
SQL
Java
C++
Supervised Learning

Unsupervised Learning
Regression
Classification
Clustering
Decision Trees
Random Forest
Support Vector Machines
K-Means
Artificial Neural Networks
CNN
RNN
Transfer Learning
TensorFlow
Keras
PyTorch
Pandas
NumPy
Matplotlib
Scikit-learn
Seaborn
Text Preprocessing
TF-IDF
Word Embeddings
Sentiment Analysis
Hugging Face Transformers (Basics)
Git
Jupyter Notebook
VS Code
Google Colab
Linux
Data Preprocessing
Feature Engineering
Model Training
Hyperparameter Tuning
Cross Validation
Model Evaluation
Data Visualization
Python Programming
Problem Solving
Analytical Thinking
Communication
Team Collaboration
Adaptability
Continuous Learning

CERTIFICATIONS

Machine Learning Specialization – Coursera

Deep Learning with TensorFlow
Python for Data Science
Introduction to PyTorch
SQL for Data Analysis

ACHIEVEMENTS

- Finalist in Inter-College AI Hackathon 2024. - Solved 300+ coding problems on LeetCode and HackerRank. - Developed multiple end-to-end machine learning projects using open datasets.

LANGUAGES

- English (Fluent) - Malayalam (Native) - Hindi (Intermediate)
