Professional Summary

AI Architect with 11+ years of experience designing enterprise-scale AI, ML, Deep Learning, NLP and Generative AI solutions. Expert in end-to-end AI pipelines, Python development, cloud AI platforms (AWS, Azure, GCP), MLOps, CI/CD, model monitoring, governance, and technical leadership.

Core Skills

AI Architecture, Solution Design, Python, Deep Learning, NLP, LLMs, RAG, PyTorch, TensorFlow, Hugging Face, LangChain, LlamaIndex, MLflow, Kubeflow, Docker, Kubernetes, Airflow, FastAPI, REST APIs, AWS SageMaker, Amazon Bedrock, Azure ML, Azure OpenAI, GCP Vertex AI, GitHub Actions, Terraform.

Professional Experience

Senior AI Architect | Innovexa Technologies Pvt Ltd | Jan 2022 – Present

- Designed enterprise AI architectures and end-to-end AI pipelines covering ingestion, training, inference, monitoring, and retraining.
- Built production NLP and Generative AI solutions using Python, FastAPI, Transformers, and RAG.
- Integrated AI services with enterprise APIs and cloud platforms.
- Implemented MLOps with MLflow, Kubeflow, Docker, Kubernetes, CI/CD, monitoring, governance, and drift detection.
- Led a team of 15 AI engineers and mentored teams on AI architecture and MLOps best practices.

AI Technical Lead | NextWave Digital Solutions | Jul 2018 – Dec 2021

Led NLP modernization projects, automated ML pipelines using Airflow, deployed scalable AI APIs, and implemented MLflow-based experiment tracking.

Machine Learning Engineer | DataVision Analytics | Jun 2015 – Jun 2018

Developed predictive ML models, deep learning solutions, recommendation systems, and optimized model inference performance.

Education

M.Tech., Computer Science & Engineering (Fictional), Indian Institute of Technology (Fictional)

Certifications

AWS Certified Machine Learning – Specialty; Microsoft Azure AI Engineer Associate; Google Professional Machine Learning Engineer; CKAD

Key Achievements

Architected AI systems supporting 25M+ monthly predictions, reduced deployment time by 80%, lowered cloud costs by 35%, and established enterprise MLOps

standards.
