SUMMARY

Software Engineer with 4+ years of experience designing, developing, and maintaining scalable web applications and distributed systems. Proficient in backend development using Java and Spring Boot, frontend development with React, and cloud-native deployment using AWS and Docker. Passionate about writing clean, maintainable code and solving complex engineering problems while collaborating in Agile teams.

EDUCATION

National Institute of Technology, Warangal

Bachelor of Technology (B.Tech.), Computer Science and Engineering, CGPA: 8.74 / 10

2020

EXPERIENCE

Software Engineer

BluePeak Technologies Pvt. Ltd.

July 2022 – Present

Pune, India

Responsibilities

- Designed and developed scalable RESTful APIs using Spring Boot serving over 500,000 monthly users.
- Built microservices for order management, authentication, and payment processing.
- Improved application performance by reducing API response time by 35%.
- Integrated third-party payment gateways and notification services.
- Developed reusable React components for customer dashboards.
- Containerized applications using Docker and deployed them on AWS.
- Wrote unit and integration tests achieving over 90% code coverage.
- Participated in sprint planning, code reviews, and architecture discussions.
- Technologies: Java, Spring Boot, React, PostgreSQL, Docker, AWS, Git

Associate Software Engineer

Innova Digital Systems

June 2020 – June 2022

Hyderabad, India

Responsibilities

- Developed backend modules for an enterprise HR management platform.
- Implemented authentication and authorization using Spring Security and JWT.
- Optimized SQL queries resulting in a 28% improvement in report generation.
- Created REST APIs consumed by React-based frontend applications.
- Automated deployment pipelines using Jenkins.
- Collaborated with QA engineers to resolve production issues and improve software reliability.
- Technologies: Java, Spring Boot, MySQL, React, Jenkins, Git

PROJECTS

E-Commerce Platform

- Developed a full-stack e-commerce application supporting user authentication, product catalog, shopping cart, and payment integration.
- Implemented role-based access control for customers and administrators.
- Designed a responsive frontend using React.
- Technologies: Java, Spring Boot, React, PostgreSQL, Stripe API

Task Management System

- Built a collaborative task management application with project boards, deadlines, comments, and notifications.
- Implemented JWT authentication and role-based permissions.
- Technologies: Spring Boot, React, MongoDB, Docker

URL Shortener Service

- Developed a scalable URL shortening service with analytics and click tracking.
- Designed efficient database indexing for fast lookups.
- Technologies: Java, Redis, PostgreSQL, Docker

TECHNICAL SKILLS

Java

Python

JavaScript

TypeScript

SQL

C++

Spring Boot

Spring MVC

Spring Security

REST APIs

Microservices

Hibernate

JPA

React

HTML5

CSS3

Bootstrap

Tailwind CSS

PostgreSQL

MySQL

MongoDB

Redis

AWS (EC2, S3, RDS, Lambda)

Docker

Kubernetes

Jenkins

GitHub Actions

Git

Maven

Gradle

Linux

Postman

Swagger

IntelliJ IDEA

VS Code

Object-Oriented Programming

Design Patterns

Data Structures & Algorithms

System Design

Unit Testing
Integration Testing
Agile Scrum
CI/CD

CERTIFICATIONS

Oracle Certified Professional: Java SE Developer
AWS Certified Developer – Associate
Spring Framework Masterclass
Docker & Kubernetes for Developers

ACHIEVEMENTS

- Received the "Engineering Excellence Award" for delivering a critical payment system ahead of schedule. - Reduced production incidents by implementing automated testing and deployment practices. - Mentored five graduate engineers during onboarding. - Ranked in the top 5% in multiple company coding competitions.

TECHNICAL STRENGTHS

- Clean Code Principles - SOLID Principles - Design Patterns - REST API Development - Database Design - Performance Optimization - Debugging & Troubleshooting - System Design Fundamentals

SOFT SKILLS

- Problem Solving - Communication - Team Collaboration - Leadership - Time Management - Analytical Thinking

LANGUAGES

- English (Fluent) - Hindi (Professional) - Marathi (Native)

INTERESTS

- Open Source Contributions - Competitive Programming - Cloud Computing - System Design - Reading Technology Blogs - Cycling
