Professional Summary

Motivated Computer Science graduate with a strong foundation in software development, machine learning, and web technologies. Skilled in building scalable applications and intelligent systems, including disease detection models and full-stack web applications. Passionate about problem-solving, clean code practices, and continuous learning. Seeking an entry-level position to contribute technical expertise and grow in a dynamic environment.

Education

Bachelor of Technology in Computer Science

ABC Institute of Technology, Bangalore, India

Graduation: May 2026

- Relevant Coursework: Data Structures, Algorithms, DBMS, Operating Systems, Machine Learning
 - GPA: 8.5/10
-

Technical Skills

- **Programming Languages:** Python, Java, C++, JavaScript
 - **Web Technologies:** HTML, CSS, React.js, Node.js, Express.js
 - **Database:** MySQL, MongoDB
 - **Tools & Platforms:** Git, GitHub, Docker, VS Code
 - **Concepts:** OOP, Data Structures & Algorithms, REST APIs, Machine Learning
 - **Operating Systems:** Windows, Linux
-

Projects

Disease Detection System – Python, TensorFlow

- Developed a machine learning model to detect diseases from medical images.
 - Used Convolutional Neural Networks (CNN) for image classification.
 - Achieved 92% accuracy on test dataset.
 - GitHub: <https://github.com/johndoe-dev/disease-detection>
-

Full Stack Web Application – MERN Stack

- Built a responsive web application for task management and productivity tracking.
 - Implemented user authentication, CRUD operations, and RESTful APIs.
 - Improved UI using React and optimized backend with Node.js.
 - GitHub: <https://github.com/johndoe-dev/task-manager-app>
-

Developer Utility Tool – Python CLI

- Created a command-line tool to automate file organization and cleanup.
 - Reduced manual effort by 70% through automation scripts.
 - Designed modular code for scalability and reusability.
 - GitHub: <https://github.com/johndoe-dev/dev-utility-tool>
-

Work Experience / Internship

Software Developer Intern – TechSolutions Pvt Ltd

Jan 2026 – Apr 2026

- Assisted in developing backend services using Node.js and Express.
- Worked on debugging and improving application performance.
- Collaborated in Agile team meetings and code reviews.
- Contributed to API integration and documentation.

Achievements

- Solved 300+ problems on LeetCode and HackerRank
- Finalist in National Level Hackathon (2025)
- Certified in Python Programming (Coursera)

Additional Information

- Strong analytical and problem-solving skills
- Good communication and teamwork abilities
- Fast learner with adaptability to new technologies
